ERIC MALVAR

SOFTWARE ENGINEER

OBJECTIVE

Full-Stack web developer with a background in Quality and Applications Engineering. An outgoing individual with a passion for continuous improvement as well as a desire to create user-friendly scalable web applications. A true team player with a positive attitude to take on and succeed at any task.

UC IRVINE FULL-STACK BOOT CAMP

(May 2019-October-2019)

- ◆ Used JavaScript, React, Node JS, HTML, CSS, and Express to produce a variety of interactive web applications from front end to back end
- ◆ Worked on multiple group projects using Git to maintain version control

APPLICATIONS ENGINEER II

(January 2017-April-2019)

- ◆ Fixed bugs and implemented improvements in PC-DMIS software using JIRA
- ◆ Oversaw automation of inspection processes of over 50+ customers
- ◆ Performed software training and product demonstrations for large groups of customers from various companies
